# Silver Star

Etta Rodgers

Silver Star, where can my baby be? stop his wandering and  
bring him back home, you can see where you are, so why can't you, silver  
star? oh, silver star, silver star, take a message for me,  
and deliver it, wherever he may be, you can see where you are,  
so, why can't you, silver star?  
tell him that I will always love him tell him that I will always care  
tell him that if he wants to come back again, I'll be waiting there,

(repeats second half of chorus.)
